

## Sprite Set List for

# YOSHIS ISLAND™

Made by Yoshis Fan from SMWCentral  
Edited to hexadecimal by Zeldara109

### You need to know:

Some of the names mentioned in this list aren't the names, which were used for Eggvine and sometimes it could be, that the name is not even the real name of the sprite. But it is not that bad as all that!! I've made a list, where you can look up every single sprite, which is mentioned here, with its number. You find it on the bottom, so it won't disturb you, when you search for a sprite in the Sprite Set list. There are also a few objects, which turn into sprites. They are listed here, too. If you need to find a sprite, then hit [Ctrl + F](#) and type in the name of the sprite. They are always singular, except when in one sprite there are more of them. I've left Hookbill's mountain BG out, sometimes, because in some Sprite Sets you can use it, but you can't fight Hookbill in it... Bosses are mentioned bold, italic and blue in the Sprite Set list. Note, that I assume that you haven't edited any Sprite Set, yet! I hope you find it useful!!

If you see something in this list, which is wrong, please contact me at [SMWCentral!!](#)
